# The After I'm Gone Program Technical Support Services

## The Letter of Intent

The letter of intent is a document that communicates important information and guidelines to people who may become responsible for the care of your son or daughter. This Program will provide you with a template from which you can develop your own letter of intent for your son or daughter.

*Can I leave money and property to my son or daughter with a disability?*

## Personal Agent

The Personal Agent provides intensive advocacy on behalf of your son or daughter. That advocacy might involve periodic visits, phone calls, contact with support circle members or attending meetings.

## Trustee

A Trustee is a person or entity responsible for watching over a trust and following its instructions on when and how to distribute the assets. This Program will provide you with information on Special Needs Trusts and the role of the Trustee.

*Who will help my son or daughter manage their inheritance so that they don't lose Medicaid?*

## Advisor to the Trust

The Advisor to the Trust assists the trustee of your child's Special Needs Trust by providing information about public benefits, special education services, Community Mental Health services and other programs, laws and regulations that the Trustee may not be familiar with.

## Alternatives to Guardianship

There are many alternatives to guardianship. If someone can get the supports and services they need and want with the help of family and friends who are involved in their life, there is no need for guardianship. Other alternatives include durable powers of attorney, advance directives for health care, financial powers of attorney, trusts, family consent policies and other surrogate arrangements.
