

# MICHIGAN PARTNERS FOR FREEDOM

For citizens with disabilities like me, Self-Determination is a way to gain more **responsibility, support, and authority** of our lives.

*My journey can help yours!*

*I am proud to participate in this world-wide Self-Determination movement. I not only advance self-determination in my life, but also help others.*

Official Local Leader for  
Michigan Partners for Freedom

## JEFF GUTHRIE

I have an engaging story to tell about self-determination and independence. I was the first person in Oakland County with a mental illness to have an individual service budget.

If you want to understand the steps to self-determination, perhaps I can help. I can share my goals and how I have utilized the principles of self-determination to move out my family home to a place of my own, group homes, and rehabilitation facilities. If your goal is to gain control, have the freedom to become independent, and you want to learn how self-determination can work in your life—**CONTACT ME!**

I am available to address any interested audience and recommend that everyone pursue Self-Determination as a way to achieve their goals, and change their life!
