

CWP (Children's Waiver Program)

- **Enhanced Transportation** is being removed as a service due to limited use.
 - MDHHS's record show that people using the CWP use state plan transportation services.
- **Equine (Horse Riding) Therapy** under "Specialty Services" is added.
- For **Specialty Services, providers** will no longer need to have full board certification before providing services.
 - This will expand the provider network for these services and allow more people to receive services.
 - Providers must be under supervision while getting board certification.
- Michigan is changing **Overnight Health and Safety Support** to allow more people to get this service. (Same as the HAB Waiver)
 - Overnight Health and Safety Supports now includes overnight supervision (monitoring) for health-related concerns or in case of a medical emergency.
- **100 additional slots will be added.**
 - This will change the numbers from 569 to 669 "slots".
 - Thanks, but...
- **"Fiscal Intermediary"** has been updated to **"Financial Management Services"**.
- **Provider qualification verifications** are changed from every two years to every three years.
- **PIHP/CMHSP site reviews** have been changed from every two years to every year.

- **Conflict Free Access and Planning** rules have been added to the waiver.
- Performance measures were changed due to CMS feedback. They are the same as the HAB Waiver.
 - Number and percent of administrative hearings about utilization management (service use) issues
 - Number and percent of PIHPs (Prepaid Inpatient Health Plans) that do prior authorizations (approvals) by following policy.
 - Number and percent of PIHPs that have filled at least 95% of their HAB slots.
 - Number and percent of PIHPs that use quality improvement activities as written in their contract.
 - Number and percent of issues for provider qualifications that were fixed within 90 days. (We need the Department to issue uniform guidelines for everyone.)
 - Number and percent of PIHPs who have useful policies in place about following HCBS (Home and Community-Based Services) rules and checking to make sure they are followed.
 - Number and percent of IPOS issues that were fixed within 90 days.
 - Number and percent of Individual Plans of Service (IPOS) that show the provider and person that helps with service planning are not the same.
 - If individual issues are noted because of the review, MDHHS will contact the PIHP/CMHSP and check to make sure the PIHP/CMHSP fixes the concerns.

- Updated **Respite** service to include Licensed Children's Therapeutic Group Home and Licensed Foster Family Group Home (Same as HAB Waiver)
